SUBJECT INDEX

Acer saccharum—See Maple
Acylation of protein isolate 235
Albumen, egg, viscosity of 595
Anchovy, salted, ripening of 193
Apple,
  freezing of 615
  seeds, composition of 263
  sensory evaluation 163
Ascorbic acid in blanched peas 219
Aspergillus terreus cellulase 271
ATP in 'hot' chicken meat 553

Bacillus spores, effect of u.v. irradiation and hydrogen peroxide 467
Bacon, hot curing 339
Bagasse for cellulase and protein production 271
Baking quality and gluten amide 365
Beef mince, determination of fat in 567
Beta hydroxy butyric acid in egg 649
Biological value of meat, effect of collagen and heat on 115
Blanched peas, vitamin C in 219
Blood residues, catalase test for 139
Blue whiting, spun protein fibres from 483
Bologna sausage, sorption isotherms 37
Book Reviews,
  A Settlement Amply Supplied—Food Technology in 19th Century Australia 655
  Algae Biomass 525
  Autoxidation in Food and Biological Systems 146
  Butterworth's Law of Food and Drugs 413
  Carbohydrate Sweeteners in Foods and Nutrition 144
  Cheesemaking Practice 787
  Contemporary Developments in Nutrition 147
  Criteria of Food Acceptance 651
  Dairy Microbiology 782
  Developments in Food Preservatives 412
  Fats and Oils: Chemistry and Technology 295
  Flavor Microbiology 150
  Food Industry Wastes 779
  Food Microbiology – A Framework for the Future 145
  Food Packaging Materials 289
  Foods, Nutrition and Dental Health 783
  Fruit and Vegetable Juice Processing Technology 415
  Good Health—Is There A Choice? 654
  Introduction to Fishery By-Products 785

Living Nutrition 522
Microbial Ecology of Foods 292
Microbiological Applications of Gas Chromatography 291
Nutritional Improvement of Food and Feed Proteins 521
Post-Harvest: An Introduction to the Physiology and Handling of Fruit and Vegetables 655
Principles of Design and Operation of Catering Equipment 411
Problems in Nutrition Research Today 786
Protein Functionality in Foods 290
Quality in Stored and Processed Vegetables and Fruit 659
Smith's Introduction to Industrial Mycology 779
Standards in Absorption Spectrometry 149
Studies of Food Microstructure 780
The Analysis of Dietary Fiber in Food 523
The Biochemistry of the Carotenoids, Vol 1, Plants 524
The Safety of Foods 143
Water Activity: Influences on Food Quality 656
Bread making, taro products in 771
Broiler carcasses, destruction of *Enterobacteriaceae* in 461
Buffalo gourd, oil from 19

Calorimetric study of self-heating in coffee and chicory 451
Carotenoids in dried carrots 109
Carrots, dehydration of 607
  dried, stability of carotenoids in 109
Cassava,
  defatting of 761
  drying of 27
  starch, cyanide in 251
Catalase test to detect blood residues 139
Caustic soda in circulation cleaning 431
Cellulase production 271
Cereals, mycotoxins in 1
Cheese,
  cholesterol in 281
  protein degradation in 517
  soybean milk in production of 71, 297
Chicken meat,
  hot, characteristics of 553
  hot salted, processing of 561
  radiation to destroy *Enterobacteriaceae* in 461
Chicory, self-heating in 451
Chilling effect on transaminases of turkey meat 135
Cholesterol determination 281
Cider, sensory evaluation 163

Circulation cleaning of a plate heat exchanger 417, 431, 745
Citrus seeds, composition of 263
Cleaning—See Circulation Cleaning
  effect of sorbate on 307
Clostridium botulinum,
Cod,
  dried salted, sorption isotherms in 125
  spun protein fibres of 483
Coffee and chicory, self-heating of 451
Collagen, effect on digestibility and biological value of meat 115
Colocasia esculenta—See Taro
Concentrated milk, diacetyl and heat stability of 753
Cooking,
  effect on dietary fibre of potato 99
  losses in broken rice 507
  of meat emulsion, and moisture movement 709, 719
  time, effect on spaghetti 349
Coregonus alba—See Whitefish
Cucurbita foetidissima, oil from 19
Cucurbita mixta—See Pumpkin
Cured meats, *Clostridium botulinum* in 307, 471, 727
Curing, hot, of bacon 339
Cyanide in cassava starch 251

Dehydration,
  of carrots 607
  of cassava, moisture movement during 27
  of fish 211
  of fruit purées 285
  of potato 373, 387
  of rice 679
  of vegetables by HTST 669
Dehydro ascorbic acid in blanched peas 219
Diacetyl and heat stability of milk 753
Dietary fibre of potato, effect of cooking on 99
Diffusion in gels 531
Digestibility of meat protein, effect of collagen and heat on 115
Domiati cheese 71, 297
Dried carrots, stability of carotenoids in 109
Dried fruit, vegetable oiling agent for 661
Dried salted fish,
  sorption isotherms of 125
  storage life of 201
Drip loss, and pH in pork 573
Drying—See Dehydration

Egg, β-hydroxybutyric acid in 649
Egg white, viscosity of 593
Electromicroscopy of,
  ice morphology 615
  limed corn kernels 687
Electrophoresis to detect soyprotein in meat products 327
Engraulis anchoita—See Anchovy
Enterobacteriaceae in chickens, destruction by radiation and low temperature 461

Fat determination in beef mince 567
Fat retention and emulsifying capacity of hot chicken meat 553
Fatty acid changes in frozen frog legs 79
Fibre, dietary, of potato, effect of cooking on 99
Fick's law 683
Filleting offal, proteins of 767
Fish,
  nitrosodimethylamine in 703
  proteins, spun 483
  roe products, lipid hydrolysis in 87
Flesh separating machines for fish 767
Flour testing by near infra-red reflectance analysis 355
Fluoride added to milk 55
  effect of heat treatment on 63
Fluoride-containing milk powder 579
Freezing, effect on stability of carotenoids in dried carrots 109
Frogs legs, frozen, changes in fatty acids of 79
Fruit purées, drying of 285
Fruits, dried, vegetable oiling agent for 661
Functional properties of protein isolate 235

Gadus morrhua—See Cod
Gas, natural, causing nitrosamine formation 703
Gas-liquid chromatography, cholesterol determination by 281
Gels, diffusion in 531
GLC—See Gas-liquid chromatography
Glutamic-oxaloacetic transaminase in turkey meat 135
Gluten amide and baking quality 365

Heat,
  effect on fluoride added to milk 63
  exchangers, circulation cleaning of 417, 431, 745
  stability of concentrated milk 753
  treatments, overshooting after steam off 441
Helianthus annus—See Sunflower
Herring, smoked, microflora of 695

Hydrogen peroxide and u.v., effect on *Bacillus* spores 467
β-Hydroxybutyric acid in egg 649
Hypoxanthine as an index of lobster spoilage 541

Ice morphology in frozen apple 615
Irradiation to destroy *Enterobacteriaceae* in chicken 461
  u.v., effect on bacterial spores 467
Isohalic sorption isotherms 125, 201

Johnius soldado, dry-salting of 211

Lactobacillus in vacuum-packed smoked herring 695
Lipids of fish roe products, hydrolysis during storage 87
Lobster, spoilage indices for 541
Lupinseeds, oil in 11

Manihot esculenta—See Cassava
Maple seed, composition of 263
Mathematical modelling
  for drying of cassava 27
  for growth of *Clostridium botulinum* 307, 727
  for heat treatments 441
Meat
  determination of fat in 567
  emulsion, moisture movement in 709, 719
  products, determination of soybean protein in 327
  effect of collagen and heat on protein digestibility 115
    sorption isotherms of 37
Meats, cured, *Clostridium botulinum* in 307, 471, 727
Microbial protein from sugar cane bagasse 271
Microbiological quality of shrimps, resazurin test for 513
Microflora of smoked herring 695
Micromesistius poutassou—See Blue Whiting
Milk, concentrated, diacetyl and heat stability of 753
Milk, fluoride added to 55, 63
Milk powder, fluoride in 579
Moisture,
  isotherms—See Sorption isotherms
  movement during cooking of meat emulsion 709, 719
    drying of cassava 27
Mycotoxins in cereals 1

Near infrared reflectance analysis of flour 355
Nephrops norvegicus, spoilage indices in 541
Ninhydrin test for proteolysis 517

NIR—See Near infrared reflectance
Nitrosamines in fish 703
  in palm wine 589
Nitrosodimethylamine in fish 703
Nutritional value of meat products containing collagen 115

Oil
  in lupin 11
  in seeds 263
  of *Cucurbita foetidissima*, characteristics of 19
  vegetable, for dried fruits 661
Osmotic concentration of potato before drying 387

Paddy, parboiling of 499
Palm wine, nitrosamines in 589
Parboiling of paddy 499
Peas, blanched, vitamin C in 219
pH and drip in pig muscle 573
Plate heat exchangers, circulation cleaning of 417, 431, 745
Polyacrylamide gel electrophoresis in protein identification 327
Polyunsaturated fatty acids in seeds 263
Potato,
  drying of 373, 387
  effect of cooking on dietary fibre of 99
  slices, sorption isotherms 47
Poultry, cholesterol in 281
Pork, pH and drip in 573
Pressurized gas freezing for air drying 607
Processing of 'hot' salted chicken meat 561
Protein,
  determination of 327, 355
  isolate, functional properties of 235
  microbial, from sugar cane bagasse 271
  of fish fillet offal 767
  spun fibres 483
Proteolysis, tests for 517
Proximate analysis of seeds 263
Pumpkin seed, composition of 263

Radiation
  to destroy *Enterobacteriaceae* in chicken 461
  u.v., effect on spores 467
Rainbow trout, roe, lipid hydrolysis in 87
Rana hexadactyle—See Frog

Range bias in sensory evaluation 405
Rennet coagulation of milk, effect of soybean milk on 71
Resazurin test on shrimps 513

Rice,
cooking losses in 507
drying of 679
parboiling of 499

Salmo gairdneri—See Rainbow trout
Salmonella, in chicken, destruction by radiation and low temperature 461
Salted
anchovy, ripening of 193
fish 211
fish, sorption isotherms of 125
storage life of 201
Scanning electron microscopy
of limed corn kernels 687
to study ice morphology 615
SCP—See Microbial protein
SDS polyacrylamide gel electrophonesis in protein identification 327
Seeds, proximate analysis of 263
Self-heating in coffee and chicory 451
Sensory evaluation
of salted anchovy 193
of spoilage in lobster 541
of watercress 633
range bias in 405
scoring methods 163
two-factor triangle test 153
vocabulary for 633
Shear viscosity of egg white 595
Shrimps, resazurin test on 513
Solar drying
of potato 373, 387
of salted fish 211
Sorbic acid, effect on *Clostridium botulinum* 307
Sorption isotherms
and storage life prediction 201
of dried salt cod 125
of meat products 37
of potato slices 47
Soybean
milk in cheese production 71, 297
protein, detection in meat products 327

Spaghetti, quality of 349
Spores of *Bacillus*, effect of u.v. and hydrogen peroxide on 467
Starch, cassava, cyanide in 251
Sugar cane bagasse, bioconversion of 271
Sultanas, vegetable oiling of 661
Sunflower protein isolate 235

Taro products in bread making 771
Thermal analysis of self-heating in coffee and chicory 451
Thermal drip of 'hot' chicken meat 553
Thermal treatments, overshooting of 441
Tomato paste production 177
Tortilla, electron microscopy of corn for 687
Transaminases in turkey meat 135
Triangular test 153
Trimethylamine as an index of lobster spoilage 541
Trinitrobenzenesulphonic acid test for proteolysis 517
Trout, roe, lipid hydrolysis in 87
Turkey meat, transaminases in 135

Ultraviolet irradiation
  and hydrogen peroxide, effect on *Bacillus* spores 467
  effect on nitrosamines in palm wine 589

Vacuum-packed smoked herring 695
Vegetables, dehydration of 669
Viscosity of egg white 595
Vitamin C,
  effect on nitrosamines in palm wine 589
  in blanched peas 219
Vocabularies in sensory evaluation 633

Watercress, sensory evaluation of 633
Water holding and retention capacity of hot chicken meat 553
Wheat, glutenamide in, and baking quality 365
Whitefish roe, lipid hydrolysis in 87
Wiltshire bacon, hot curing 339

PRINTED IN ENGLAND BY ADLARD & SON LTD, BARTHOLOMEW PRESS, DORKING

Contents

Volume 17, Number 1, February 1982

B. G. Osborne:
Mytoxins and the cereals industry—a review 1

J. G. Fleetwood and B. J. F. Hudson:
Lupinseed—a new source of edible oil 11

N. N. Khoury, S. Dagher and W. Sawaya:
Chemical and physical characteristics, fatty acid composition and toxicity buffalo gourd oil, *Cucurbita foetidissima* 19

J. C. Igbeka:
Simulation of moisture movement during drying a starchy food product—cassava 27

J. C. Igbeka and J. L. Blaisdell:
Moisture isotherms of a processed meat product—Bologna 37

G. Mazza:
Moisture sorption isotherms of potato slices 47

C. G. Beddows:
The status of fluoride added to bovine milk. I. Fluoride in cold milk 55

C. G. Beddows and C. Blake:
The status of fluoride in bovine milk. II. The effect of various heat treatment processes 63

N. H. Metwalli, S. I. Shalabi, A. S. Zahran and O. El-Demerdash:
The use of soybean milk in soft-cheese making. I. Effect of soybean milk on rennet coagulation property of milk 71

A. Sarvadeva and L. N. Srikar:
Changes in fatty acids of frog legs during frozen storage 79

J. K. Kaitaranta:
Hydrolytic changes in the lipids of fish roe products during storage 87

D. E. Johnston and W. T. Oliver:
The influence of cooking technique on dietary fibre of boiled potato 99

S. S. Arya, V. Natesan, K. S. Premavalli and P. K. Vijayaraghavan:
Effect of pre-freezing on the stability of carotenoids in unblanched air-dried carrots 109

A. Laser-Reutersward, N.-G. Asp, I. Björck and H. Rudérus:
Effect of collagen content and heat treatment on protein digestibility and biological value of meat products 115

P. E. Doe, Rahila Hashmi, R. G. Poulter and June Olley:
Isohalic sorption isotherms. I. Determination for dried salted cod 125

Contents

Technical notes

J. M. Jones and Christina C. Rooney:
Observations on glutamic-oxaloacetic transaminases of turkey breast muscle during chill storage 135

J. J. Milledge:
The use of rapid 'catalase' hygiene test to detect blood residues 139

Book reviews 143

Errata 152

Volume 17, Number 2, April 1982

J. M. Harries and G. L. Smith:
The two-factor triangle test 153

A. A. Williams:
Scoring methods used in the sensory analysis of foods and beverages at Long Ashton Research Station 163

M. Moresi and C. Liverotti:
Economic study of tomato paste production 177

B. Filsinger, C. A. Barassi, H. M. Lupin and R. E. Trucco:
An objective index for the evaluation of the ripening of salted anchovy 193

R. G. Poulter, P. E. Doe and June Olley:
Isohalic sorption isotherms. II. Use in the prediction of storage life of dried salted fish 201

S. Y. Yu, C. L. Siaw and A. Z. Idrus:
The application of technology to the processing of dry-salted fish in peninsular Malaysia: comparison of sun-dried and oven-dried fish 211

J. D. Selman and E. J. Rolfe:
Effects of water blanching on pea seeds. II. Changes in vitamin C content 219

M. Kabirullah and R. B. H. Wills:
Functional properties of acetylated and succinylated sunflower protein isolate 235

Patricia Arguedas and R. D. Cooke:
Residual cyanide concentrations during the extraction of cassava starch 251

B. S. Kamel, J. M. deMan and B. Blackman:
Nutritional, fatty acid and oil characteristics of different agricultural seeds 263

S. K. Garg and S. Neelkantan:
Bioconversion of sugar cane bagasse for cellulase enzyme and microbial protein production 271

J. Karkalas, A. E. Donald and K. M. Clegg:
Cholesterol content of poultry meat and cheese determined by enzymic and gas–liquid chromatography methods 281

Technical note
J. A. Kitson and D. R. MacGregor:
Drying fruit purées on an improved pilot plant drum-drier 285

Book reviews 289

Volume 17, Number 3, June 1982

N. H. Metwalli, S. I. Shalabi, A. S. Zahran and O. El-Demerdash:
The use of soybean milk in soft cheese making. II. Organoleptic and chemical properties of Domiati cheese made from a mixture of soybean milk and whole milk 297

T. A. Roberts, Angela M. Gibson and A. Robinson:
Factors controlling the growth of *Clostridium botulinum* types A and B in pasteurized, cured meats. III. The effect of potassium sorbate 307

D. J. Armstrong, S. H. Richert and Susan M. Reimann:
The determination of isolated soybean protein in raw and pasteurized meat products 327

A. A. Taylor, B. G. Shaw, P. D. Jolly and G. R. Nute:
Hot curing Wiltshire bacon 339

A.-H. Y. Abdel-Rahman:
Effect of cooking-time on the quality, minerals and vitamins of spaghetti produced from two Italian durum wheat varieties 349

B. G. Osborne, S. Douglas and T. Fearn:
The application of near infrared reflectance analysis to rapid flour testing 355

J. A. D. Ewart:
Baking quality and gluten amide level 365

M. N. Islam and J. M. Flink:
Dehydration of potato. I. Air and solar drying at low air velocities 373

M. N. Islam and J. M. Flink:
Dehydration of potato. II. Osmotic concentration and its effect on air drying behaviour 387

R. L. McBride:
Range bias in sensory evaluation 405

Book reviews

Contents

Volume 17, Number 4, August 1982

C. S. Cheow and A. T. Jackson:
Circulation cleaning of a plate heat exchanger fouled by tomato juice. I. Cleaning with water 417

C. S. Cheow and A. T. Jackson:
Circulation cleaning of a plate heat exchanger fouled by tomato juice. II. Cleaning with caustic soda solution 431

I. J. Kopelman, D. Naveh and I. J. Pflug:
Overshooting of thermal processes due to temperature distribution at steam-off 441

Aloïs Raemy and P. Lambelet:
A calorimetric study of self-heating in coffee and chicory 451

R. W. A. W. Mulder:
The use of low temperatures and radiation to destroy Enterobacteriaceae and Salmonellae in broiler carcasses 461

Catherine E. Bayliss and W. M. Waites:
Effect of simultaneous high intensity ultraviolet irradiation and hydrogen peroxide on bacterial spores 467

Angela M. Gibson, T. A. Roberts and A. Robinson:
Factors controlling the growth of *Clostridium botulinum* types A and B in pasteurized cured meats. IV. The effect of pig breed, cut and batch of pork 471

I. M. Mackie and B. W. Thomson:
The preparation and assessment of spun fibres from fish proteins using a wet spinning process 483

K. R. Unnikrishnan, C. S. Viraktamath, H. Krishnamurthy and K. R. Bhattacharya:
Parboiling of paddy by simple soaking in hot water 499

Technical notes

P. A. Clarke:
Cooking losses in rice—a preliminary study of the effect of grain breakage 507

R. Kummerlin:
Resazurin test for microbiological control of deep-frozen shrimps 513

K. M. Clegg, Y. K. Lee and J. F. McGillan:
Trinitrobenzenesulphonic acid and ninhydrin reagents for the assessment of protein degradation in cheese samples 517

Book reviews 521

Corrigendum 530

Contents

Volume 17, Number 5, October 1982

P. S. Belton and R. H. Wilson:
An experimentally simple method for measuring diffusion in food gels 531

G. D. Stroud, J. C. Earley and G. L. Smith:
Chemical and sensory changes in iced *Nephrops norvegicus* as indices of spoilage 541

J. Kijowski, A. Niewiarowicz and B. Kujawska-Biernat:
Biochemical and technological characteristics of hot chicken meat 553

J. Kijowski, J. Pikul and A. Niewiarowicz:
The use of hot salted chicken meat for processing 561

J. C. Casey and A. R. Crosland:
Indirect measurement of the fat content of beef mince using the Infra-Tester 567

P. D. Warris:
The relationship of pH_{45} and drip in pig muscle 573

C. G. Beddows and V. N. Wade:
Dried milk powder containing fluoride 579

E. N. Maduagwu:
Effects of pasteurization, vitamin C supplementation and ultraviolet irradiation on the nitrosamine content of palm wine 589

E. R. Lang and C. Rha:
Apparent shear viscosity of native egg white 595

C. Suarez and P. E. Viollaz:
Effect of pasteurized gas freezing on pre-treatment of carrot dehydration in air 607

J. I. Bomben and C. J. King:
Heat and mass transport in the freezing of apple tissue 615

Rose-Marie M. Spence:
The development of a vocabulary and sensory profile for the assessment of watercress quality 633

Technical note
N. L. Thomas and S. W. Stock:
The significance of β-hydroxybutyric acid in hen eggs 649

Book reviews 653

Volume 17, Number 6, December 1982

S. P. Kochhar and J. B. Rossell:
A vegetable oiling agent for dried fruit 661

Contents

K. S. Jayaraman, V. K. Gopinathan, P. Pitchamuthu and P. K. Vijayaraghavan:
The preparation of quick cooking dehydrated vegetables by high temperature short time pneumatic drying 669

R. Aguerre, C. Suarez and P. E. Viollaz:
Drying kinetics of rough rice grain 679

O. Paredes-López and M. E. Saharópolus:
Scanning electron microscope studies of limed corn kernels for tortilla making 687

H. Magnússon and K. Traustadóttir:
The microbial flora of vacuum packed smoked herring fillets 695

Pauline E. Key, Jacqueline M. Bayly, R. C. Massey and D. J. McWeeny:
Nitrosodimethylamine levels in fish cooked by natural gas and by electricity 703

G. S. Mittal, J. L. Blaisdell and F. L. Herum:
Moisture mobility in meat emulsion during cooking. I. Slab moisture history 709

G. S. Mittal, J. L. Blaisdell and F. L. Herum:
Moisture mobility in meat emulsion during cooking. II. Frankfurter moisture history 719

A. Robinson, Angela M. Gibson and T. A. Roberts:
Factors controlling the growth of *Clostridium botulinum* types A and B in pasteurized meats. V. Prediction of toxin production: Non-linear effects of storage temperature and salt concentration 727

A. T. Jackson and Wai Ming Low:
Circulation cleaning of a plate heat exchanger fouled by tomato juice. III. The effect of fluid flow rate on cleaning efficiency 745

S. I. Shalabi and P. F. Fox:
Effect of diacetyl on the heat stability of concentrated milk 753

Technical notes

K. C. M. Raja, E. Abraham and A. G. Mathews:
Effect of defatting on amylose contents, viscosity characteristics and organoleptic quality of cassava 761

B. W. Thomson and I. M. Mackie:
The content of sarcoplasmic myofibrillar and connective tissue from filleting offal of cod 767

Joan Crabtree and Jane Baldry:
The use of taro products in bread making 771

Book reviews 779
